Dell Laser Printer 1700 and 1700n

The Dell Laser Printer 1700 delivers workgroup printer performance in a compact, robust and space-saving design. The 1700 is ideal for home and small offices requiring fast, durable and efficient monochrome laser printing; the networked 1700n model offers very cost-effective built-in networking for sharing the printer within a workgroup.

Both models offer fast monochrome printing of up to 24 A4 pages per minute (ppm) with a crisp print resolution of 1200 x 1200 dots per inch (dpi). High-capacity toner cartridges and up to 800 sheets' A4 paper capacity mean you can handle high-volume print runs with ease. The 1700 and 1700n are also well-equipped to handle printing on letterheads, envelopes, card and transparencies, thanks to their flexible multi-purpose media tray.

If you're looking for an affordable printing solution that offers a low total cost of ownership, the convenience of Dell's Toner Management System and easy-to-purchase consumables, and a one-year service warranty (upgradable to four years) backed by a global brand name, the Dell Laser Printer 1700 and 1700n are hard to beat.
