

Sublimation & Beyond

Insta Design Advantages

Swing-Away Design Its swing-away design makes this an extremely user-friendly machine by giving you completely unobstructed access to the lower platen while you work. Loading garments and placing transfers is hassle-free.

Cast-In Heating Element The tubular heating element is cast into the aluminum upper platen, heating the metal from within. The element is coiled throughout the upper platen to provide a reliable and even circulation of heat out to all corners.

Interchangeable Lower Platens Its lower platen can be easily removed with the Quick-Change™ mechanism and replaced with smaller accessory platens for printing on pockets, sleeves, pant legs, back-neck and much more. Interchangeable lower platens provide you with tremendous printing versatility, all in one machine.

Solid as a Rock Construction

Best possible return on your investment

When you step up to an Insta you get a press that will continue to perform, year after year after year.

Working Space Dimensions

- Depth: 49" (124.5 cm)
- Width: 39" (99 cm)
- Height: 22" (55.9 cm)
- Power: 230 volt - 3300 Watts, 14.4 Amps
- Platen Size: 20"x25" standard (50.8 x 63.5 cm)
Additional accessory platens available for purchase - 6"x6", 6"x9", 6"x15", 10"x15", 15"x15", 15"x20"
- Shipping Weight: 200 lbs. (91 kilos)

Product Features:

- H-frame and lightweight construction
- Swing-away upper platen 20"x25"
- Ergonomic wrap-around handle made from stainless steel
- Integrated digital controller which features controls for time temperature (Fahrenheit or Centigrade)
- Manual operation

Operator Benefits

Oversized Platens Our largest manual machine with 20"x25" platens.

Even Temperature And Pressure essential in the application of sublimation and various other types of heat transfers.

Perfect Press for the expanding digital and sublimation marketplace.
