The Fellowes AutoMax™ Difference

AutoMax™ shredders offer a truly walk away shredding experience, automatically shredding stacks of paper at the push of a button. We've eliminated the limitations that were once tolerated with other auto feed shredders in the market by using patented AccuFeed™ Technology. Now you can shred common stacks of paper as they are – no pulling out staples, paper clips, or even smoothing wrinkled papers. Simply load the tray, press play and walk away with confidence. While AutoMax shreds, you get back to business.

The Best of Both Worlds

Shred a lot or a little with ease. AutoMax™ shredders feature the best of both worlds with auto feed and manual feed built into the same machine. Now that's convenience.
