Simplify tasks with customization and automation

Deliver on good information

Your best ideas can come at any time. Shouldn't you be able to share them the same way? Print up to 60 black-and-white pages per minute (ppm) to get the word out quickly. Use the standard Single Pass Document Feeder (SPDF) to transform one- or two-sided originals into digital files and distribute them via Scan-to options, including Scan-to-Email, FTP, PDF, URL and more. Store up to 3,000 frequently used forms on the embedded Document Server to keep the latest versions readily accessible. Add optional Optical Character Recognition (OCR) scanning to create searchable PDF files, so you can easily do a simple keyword search. An optional fax module lets you choose either Internet Faxing or LAN faxing over IP via optional Super G3 faxing to send digital files directly to your email inbox and reduce paper, transmission delays and multiple trips to the MFP.

Carry a lighter workload

When you stop, work stops. Use the MP 4055/MP 5055/MP 6055 to add workplace freedom without compromising productivity. Simply download the RICOH Smart Device Connector app on your Android® or iOS® devices to share information and print without printer setup configurations or utilities. Connect your Android and iOS devices with the MFP via Bluetooth (BLE), or Android devices using the Near Field Communication (NFC) tag. Grab information directly from cloud storage applications, such as Google Drive™, Box™ or Dropbox™ and print it using the RICOH Smart Device Connector app. Plus, you can now print emails and attachments with the latest version (v3.0) of the app. Scan originals at the MFP and send them to your personal device or directly to cloud storage, so you can access or distribute them digitally at your convenience. Printing from AirPrint® is also available.

Perform every task with everyday consistency

Be secure with your message

Reduce risks with a wide range of security controls. Track users and their activity with User Authentication. Have every person enter a passcode or swipe an ID card by the optional NFC or HID card readers to access the device. Set print quotas for individuals or workgroups to minimize unnecessary printing. With Locked Print, jobs are held until the authorized user releases them, so sensitive information isn't left unattended for passersby. The hard disk drive includes powerful encryption protection, so you can share files with confidence, and a DataOverwriteSecurity System (DOSS) overwrites latent images on the hard drive.

Help reduce environmental impact
