SP C440DN

40  
ppm

# The colour printer designed for all-round performance

If you had to design the perfect colour printer for your office it would be the Ricoh SP C440DN. This innovative printer packs a considerable punch with features that save you time and money. But the benefits of the sophisticated SP C440DN do not stop there! You need to protect your company's data and the SP C440DN has an array of advanced security features to keep your information secure. To meet your eco targets the SP C440DN helps with features that reduce your carbon footprint. And in today's demanding business environment you will not be waiting around for prints thanks to the fast output speed of 40 ppm.

- Protect your data with advanced security features
- Save money and cut energy use with 4.3 kWh operation
- Meet your environmental targets with eco-friendly features
- Meet all your print-output needs with flexible media options
- Affordable ECoNomy colour means you can colour print without cost worries

# Advanced features cut costs and save time

## Network security saves money and protects data

The sophisticated SP C440DN is available with an option allowing you to use this ingenious colour printer for both a restricted closed internal network and a general office network. This means you save the cost of providing separate printers, while protecting your sensitive data. Using one SP C440DN instead of two devices also saves you expensive additional office space and energy costs.

## Low energy use cuts your costs

Boost your organisation's efficiency with an on/off timer and Eco night sensor to reduce power consumption costs. An ultralow energy sleep mode uses less than a single Watt of power further cutting your costs. You cannot get better value for money because this combination of money-saving features means that the SP C440DN has the lowest total cost of ownership in its class.

## Flexible media options for all your output needs

Meet all your document output needs thanks to the enhanced media flexibility and a maximum 2300 sheet paper capacity of the SP C440DN. You have the ability to produce labels and flyers in colour, eliminating the need for costly outsourcing of print jobs, saving money.

## ECOnomy colour low-cost printing

ECOnomy colour significantly reduces the cost compared to full colour printing. Unlike draft mode, ECOnomy colour produces prints with clear and impeccable text quality at all times. And with a 40ppm output speed your organisation will benefit from efficient document management workflow. Using the XPS Direct Print Option you can even print straight from a PC or USB device without a driver for maximum flexibility.
