

POWERTEC 818 HD

Hard Drive Punch

The PowerTEC® 818 HD Hard Drive Punch is the perfect machine for destroying 2.5" and 3.5" hard drives. It features a powerful chain driven motor, hardened nickel-plated punch bolt, and simple push button operation. This punch is rated for Security Level H-3 and NSA approved for hard drive destruction. It's precision engineered and guaranteed to provide many years of trouble-free operation.

NSA Approved for the destruction of hard drives for complete security.

Features | Benefits

- NSA Approved for hard drive destruction
- Security Level H-3 for the destruction of confidential digital media
- Hardened nickel-plated punch renders hard drives unreadable
- Chain driven continuous duty motor for slip-free power
- Illuminated chute opening with transparent safety cover
- LED keypad with easy-to-use controls for simple operation
- Rubber shock mounts suspend the motor and reduce vibration
- For safety, the punch stops when the door or chute cover are opened
- Thermally protected motor prevents overheating
- Extremely quiet and will not disrupt normal office activities

LED keypad with easy-to-use controls for simple operation.

Security Level

NSA Approved

Chain Driven Motor

Precision Engineered

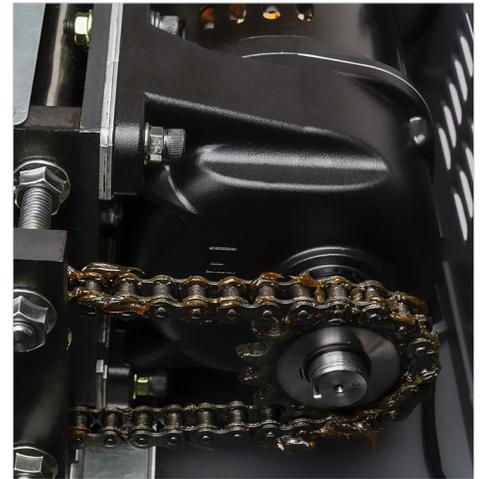

The PowerTEC® 818 Hard Drive Punch is precision engineered to destroy 3.5" and 2.5" hard drives for complete data destruction.

Chute has transparent safety cover that will automatically stop machine if opened.

A nickel-plated punch drives a hole through media, rendering them unreadable.

Powerful chain-driven motor provides slip-free performance.
