### Product information

The material feeding is convenient and takes place via the non-slip conveyor belt.

The removal trolley allows for the easy removal and disposal of the compact bales.

To ensure a consistently high cutting capacity, shredder baler combinations with cross cut have a manual oiler.

### Continuous loading

Sturdy loading hopper with built-in overloading protection to control the shredder and the conveyor belt.

### Automatic start/stop

Automatic stop and reverse when jammed.

### Reliable

Reliably shreds whole lever arch files and telephone books.

### Loading

Feeding conveyor belt for two or three-stage shredding system.

### System solution

In combination with an HSM baling press, you can expand the HSM Shredder into a complete disposal system.

### Energy efficient

Equipped as standard with energy saving frequency-regulated drive.
