## HSM Powerline SP 5080 shredder baler combination

This powerful combination of the FA 500.3 heavy duty document shredder and a counterplate baling press provides for data security in archives and compresses the shredded material into bales of between 40 and 80 kg.

### Technical data

<b>Order number:</b>	2990209137	<b>Intake width:</b>	19.69"
<b>Cutting type:</b>	particle cut	<b>Bale width x Bale height x Bale length:</b>	22.44" x 19.29" x 31.5"
<b>Security level (DIN 66399):</b>	E-2   O-2   P-3   T-3	<b>Bale weight:</b>	176 lb
<b>Cutting capacity in sheets 80g/m²:</b>	300 - 350	<b>Width x Depth x Height:</b>	49.88" x 97.4" x 70.55"
<b>Pressing power:</b>	8 t	<b>Weight:</b>	2976.24 lb
<b>Driving power:</b>	15.42 HP	<b>Shredder material:</b>	Paper, Staples and paper clips, Credit card, CD/DVD, Folders, USB sticks, Crumpled paper, Floppy disk, Computer listings
<b>Voltage / Frequency:</b>	208 V / 60 Hz		

### Product information

The material feeding is convenient and takes place via the non-slip conveyor belt.

We have integrated an automatic oiler into the device which will ensure it runs smoothly, giving you a consistently high cutting capacity and quality.

The combination can be commissioned very easily using Plug-and-Play. The conveyor belt-shredder can therefore be combined with a press at any time.

# HSM®

### Specially hardened solid steel cutting rollers

The induction-hardened solid steel cutting rollers are wear-resistant and guarantee durability.

### Continuous operation

Powerful drive allows continuous operation.

### Compression into boxes or waste bag

The shredded material which has been compressed into compact bales can be cleanly disposed of either in a box (HSM SP 4040 V) or a waste bag (HSM SP 4040 V, HSM SP 5080). These prevent particles from falling out and ensure clean handling.

### Bale weight can be manually set

The bale weight is variable and depends on your requirement (HSM SP 5080, HSM SP 5088).

### User safety through emergency off switch

It may be necessary to stop the machine immediately so we have equipped the device with an emergency off switch.

### Dust extractor

The powerful and energy efficient dust extractor HSM DE 4-100 in dust classification M ensures an optimal extraction due to the high air flow volume, thereby reducing dust emissions (accessory).
